

Aquatic Invasive Species Acknowledgement Slip Rentals

Passage of the state law (A.R.S. 17-255) established Aquatic Invasive Species (AIS) mandatory abatement conditions that must be met when moving watercraft from an AIS affected water. Lake Mohave and Mead is a listed AIS affected water and is currently infested with invasive quagga mussels and other invasive species. It is illegal to transport, import, possess, or ship aquatic invasive species to other waters in Arizona. The Arizona Game and Fish Department requires you to "Clean, Drain and Dry" your watercraft before it is moved from here to another water and the watercraft owner or transporter must ensure that the boat and equipment does not transport live quagga mussels or other AIS in violation of Arizona law.

If you are moving a watercraft that has been moored long-term (six or more days) from an identified and affected water, we remind you that you are legally required to properly desiccate and decontaminate the watercraft before it leaves any AIS listed water such as Lake Mohave or Mead. All drain plugs must remain out while being transported. For more information on AIS, visit www.azgfd.gov/AIS.

To find decontamination services, please contact the marina for more information.

I acknowledge my responsibility as a boat owner and moorage customer regarding the invasive species issue:

Aquatic Invasive Species Acknowledgement

This serves as notification that aquatic invasive species (AIS), such as the quagga mussel, are present in the Lake Mead National Recreation Area. Therefore, you are required to notify the marina manager 72 hours prior to removing a vessel from your rented slip, for the purposes of overland transport, to schedule an inspection and hot-water wash. Failure to make arrangements is subject to state penalties for knowingly transporting AIS across state lines.

Notification must include:

- a) date and time that the vessel will be removed;
- b) name and contact information for the hauler who will transport the vessel;
- c) vessel's next destination.

I acknowledge my responsibility as a slip customer:
